Chicago Grain Market Chicago, Sept. i-Trading in wheat roadened considerably and with limited offerings prices advanced sharply and at the top showed five cents over the inside figures made early on the board of trade here today. Houses with east-ern and seaboard connections were free buyers and the market action was taken as confirming the recent opinion in the trade that any increase in the outside interests would result in a shap advance. A private crop report showing 740,000,000 bushels of fall wheat for the country or 17,000,000 less than the government of 17,000,00 August reort had considerable influence on sentiment as it inicated a surplus of under 200,000,000 bushels on the basis under 200.000,000 bushels on the basis of normal consumption and carry-over. The close was strong with wheat 4 1-2 to 4 2-4c higher; corn up 3-8 to 1 120 cents and oats 1-3 to 1 1-4 higher.

Corn showed fair activity and averaged higher. September showed more attempt than the deferred deliveries, selling at 1-2 cent over the December with buying of September and selling of December by Cach interests as features. December by cosh interests as features.

Oats were active and higher with other grains. September gained slightly on Provisional were easier on seattered
